This is meant for addressing issues related to PRE-ADMISSION and POST ADMISSION matter of students and providing them Expert Advice to resolve their issues, if any as a means of single window system. Asst. Regional Directors of the Regional Centre attend the Counselling Session as per the schedule given below:

It aims at reducing the gap between the students and the university.

OBJECTIVES:

1. To address the problems/difficulties of students in support of admission to different programmes offered by the university(Pre-Admission Counselling)
2. To address all issues of students in support of their programmes immediately after the confirmation of their admission and during the course of continuing in the programme
